

## ManTech Wins \$668 Million Prime Contract for CDM with Department of Homeland Security

September 5, 2018

HERNDON, Va., Sept. 05, 2018 (GLOBE NEWSWIRE) -- ManTech (Nasdaq:MANT) today announced a \$668 million GSA FEDSIM award to support the Department of Homeland Security's Continuous Diagnostics and Mitigation (CDM) Dynamic and Evolving Federal Enterprise Network Defense (DEFEND) program. Under the new six-year agreement, ManTech will serve as the prime contractor providing CDM capabilities and support to DHS and the 9 agencies in CDM Group E, strengthening their cybersecurity posture and improving their ability to rapidly respond to today's rising threat of cyberattack.

Kevin Phillips, ManTech President and CEO

Supporting the CDM program's critical role in defending federal networks

The objectives of the CDM DEFEND effort are to reduce agency threat surfaces, achieve advantageous cost and price discounts for tools and capabilities, and accelerate the implementation and adoption of the CDM program within participating agencies.

Under this new task order, ManTech will support CDM efforts within the Department of Education (ED), Department of Housing and Urban Development (HUD), the HUD Office of Inspector General (HUD OIG), the Environmental Protection Agency (EPA), the Federal Deposit Insurance Corporation (FDIC), Nuclear Regulatory Commission (NRC), National Science Foundation (NSF), Securities and Exchange Commission (SEC), and Small Business Administration (SBA).

"ManTech has played a strategic role in the CDM program for over three years, supporting more than 65 agencies in both Phases 1 and 2, and we're honored to continue supporting the CDM program's critical role in defending federal networks," said Kevin Phillips, ManTech president and CEO. "This latest award underscores their confidence in us as a long term trusted partner."

"Government agencies are increasingly the target of sophisticated cyber threats. We're excited to support the CDM program to rapidly implement advanced cyber capabilities and secure the critical missions of our customers," said Rick Wagner, president, ManTech's Mission, Cyber & Intelligence Solutions (MCIS) group.

DHS's CDM program provides federal agencies with access to commercial solutions to rapidly identify cybersecurity risks and prioritize risks to mitigate the most significant problems first.

### About ManTech

ManTech provides mission-focused technology solutions and services for U.S. defense, intelligence community and federal civilian agencies. Now in our 50<sup>th</sup> year, we excel in full-spectrum cyber, data collection & analytics, enterprise IT, systems and software engineering solutions that support national and homeland security.
