ManTech Names Dr. Carl Busing Chief Medical Officer for ManTech Health

FAIRFAX, Va., May 14, 2015 (GLOBE NEWSWIRE) -- ManTech International Corporation (Nasdaq:MANT) has named Dr. Carl Busing chief medical officer for ManTech Health, the company's federal health IT business unit. Busing will leverage his health domain knowledge and experience to help connect healthcare providers with advanced technology solutions.

Busing is a board-certified physician and proven health IT executive with over 20 years of experience in medicine and health IT. He joins ManTech Health from Leidos, where he was federal chief medical officer and lead clinical executive for military health programs. Prior to Leidos, Busing was executive director of health at Microsoft, president of I*MD Consulting, and a clinical informatics consultant for the Army medicine CIO. He started his career as a medical officer in the U.S. Army.

Busing received his bachelor's degree in biology from the University of California at Irvine. He earned his Doctor of Medicine degree from the Uniformed Services University of the Health Sciences, Bethesda, Md., and completed his residency in family medicine at the Martin Army Community Hospital in Fort Benning, Ga.

"ManTech Health continues to build its reputation as a premier provider of IT solutions to the federal health community," said Daniel J. Keefe, president and chief operating officer of ManTech's Mission Solutions & Services Group. "Dr. Busing's medical background and executive leadership will be invaluable as we continue to bridge the gap between healthcare providers and technology."

About ManTech International Corporation

ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs for the intelligence community; the Departments of Defense, State, Homeland Security, Energy, Veterans Affairs, and Justice, including the Federal Bureau of Investigation; the health and space communities; and other U.S. federal government customers. We provide support to critical national security programs for approximately 50 federal agencies through approximately 1,100 current contracts. ManTech's expertise includes cyber security; command, control, communications, computers, intelligence, surveillance, and reconnaissance (C4ISR) solutions and services; information technology (IT) modernization and sustainment; intelligence/counter-intelligence solutions and support; systems engineering; healthcare analytics and IT; global logistics support; test and evaluation; and environmental, range, and sustainability services. ManTech supports major national missions, such as military readiness and wellness, terrorist threat detection, information security and border protection. Additional information on ManTech can be found at www.mantech.com.
