ManTech Promotes Eric Eifert to Senior Vice President of Cyber Defense Solutions

FAIRFAX, Va.--(BUSINESS WIRE)-- ManTech International Corporation (NASDAQ:MANT) has promoted Eric Eifert to senior vice president of its Cyber Defense Solutions business unit. Eifert will be responsible for growing ManTech's cyber defense services and capabilities across the spectrum of ManTech's customers.

Eifert joined the company in 2001 as a computer forensics engineer and made significant contributions that helped to establish a more advanced forensics and security research capability. "ManTech's success is largely due to our team's deeper understanding of how to stay ahead in a fast-paced, changing threat landscape," said Eifert. "We get to do what we love every day, are never short of challenges and are constantly developing new technologies, tactics and tools that get results. I am excited to continue leading our cyber defense services and build on our team's successes and talent."

President and COO of ManTech's Mission, Cyber, and Intelligence Solutions group, L. William Varner said, "Eric has built an outstanding cyber defense business over the decade and we look forward to him leading us to even greater success in the future. He is also a great example of a talented engineer who has built an excellent reputation doing something that he enjoys and ultimately- making a difference."

Prior to joining ManTech, Eifert was a Special Agent and Computer Crime Investigator for the Air Force Office of Special Investigations (AFOSI). He has remained in the Air Force Reserves and continues to serve as the reserve detachment commander for AFOSI at Langley AFB, VA. He is also an adjunct professor at George Mason University where he teaches Graduate Computer Forensics and Cyber Investigations.

About ManTech International Corporation

ManTech is a leading provider of innovative technologies and solutions for mission-critical national security programs for the intelligence community; the Department of Defense, including its health organizations; the departments of State, Homeland Security, Energy and Justice, including the Federal Bureau of Investigation (FBI); the space community; the National Oceanic and Atmospheric Administration; and other U.S. federal government customers. We provide support to critical national security programs for approximately 60 federal agencies through 1,000 current contracts. ManTech's expertise includes command, control, communications, computers, intelligence, surveillance and reconnaissance (C4ISR) lifecycle support; cyber security; global logistics support; intelligence/counter-intelligence support; information technology (IT) modernization and sustainment; systems engineering; test and evaluation; and health IT. ManTech supports major national missions, such as military readiness, terrorist threat detection, information security and border protection. Additional information on ManTech can be found at www.mantech.com.
